DevOps engineer. 17 years of experience, close to thirteen of them in IT consultancies (Atos, then Capgemini), on assignment at EDF, Pôle Emploi and URSSAF among others. Close to six years on the platform side: OpenShift and Kubernetes in production at EDF, Cloud Foundry at Pôle Emploi. Before that, a Java and PHP developer. CKA and CKAD certified. These days I containerise, I automate and I leave teams able to run things themselves. Based in Guadeloupe.
